

# PAW IT FORWARD

## **We are pleased to announce PAW IT FORWARD!**

Pets fill our hearts and homes with unconditional love and affection. All it takes is a wag of a tail or a gentle purr to fill our hearts with love. They are our best friends and although their lives are much shorter than ours we want to take care of them and give them the best life we can.

Sadly, and all too often, emergencies strike and owners may find themselves in a situation where they are not able to afford the necessary care and treatment needed – sometimes leaving euthanasia as the only option. Because we feel that such decisions shouldn't have to be based on financial constraints we have started this fund to offset some of these costs. We also provide education and options for owners to prepare for such emergencies financially such as pet insurance programs and Care Credit.

PAW IT FORWARD will be made up of contributions from our hospital, our staff and our caring clients. Yalesville Veterinary Hospital will make a donation in the memory of every client's pet that crosses over the Rainbow Bridge. Helping another pet in need is a great way to keep that pet's memory alive.

This fund is intended to be used for pets in need of emergency treatment, catastrophic care or special circumstances under which life altering treatments are crucial. It WILL NOT be available for routine care, elective tests or procedures, or sterilization.

Clients will only be considered for assistance after they have exhausted all other efforts of financial aid including Care Credit.

The medical condition of the patient must have a reasonably good prognosis for recovery. Decisions for the allocation of the funds will be carefully determined by our team of doctors.

**If you wish to PAW IT FORWARD – any one of our caring staff will be more than willing to assist you**
