

HAPPY CAMPER PACKAGE

At Northrock Hospital for Animals we strive to make your pets boarding stay the best it can be. To help promote a stress free stay we have created the happy camper package. This package includes the following options:

- Zylkene for cats: non- sedating hydrolyzed milk protein, that is administered once a day while boarding. (For Felines)
- It is recommended to start Zylkene 1-2 days before boarding or for a high anxiety patient we can try 5-7 days.
- Composure chews for dogs: chicken liver flavored calming supplement to support relaxation. Containing colostrum calming complex, L- Theanine, L- Tryptophan, and Vitamin B1.
- Composure starts working within 30 minutes and lasts up to four hours. Can be given multiple times a day.
- Probiotic option for patients that get GI upsets while boarding.

To promote a stress-free environment, we play icalm pet music throughout our hospital that is psychoacoustically designed to help calm dogs and cats. We also provide feliway diffusers in cat boarding to help with stress.
