

PAWS REHABILITATION

Rehabilitation is a universally accepted standard of care in human medicine. Recently the benefits of rehabilitation have been recognized in veterinary medicine. This therapy is now available to aid in recovery of these conditions in animals.

Animal Rehabilitation aims to restore normal movement, muscle mass & function, reduce pain, swelling and inflammation.

TREATMENTS TECHNIQUES INCLUDE:

- Soft tissue and joint mobilizations
- Stretching
- Strength & Endurance
- Movement re-education
- Massage, trigger point therapy and myofascial release
- Balance and proprioception re-training
- Thermotherapy
- Dry needle, laser, aqua, electro and acupuncture
- Underwater treadmill & hydrotherapy
- Thermoplastic splinting
- PST—Pulsed Signal Therapy
- Athletic Conditioning
- Iontophoresis & Phonophoresis
- Prolotherapy/Neural therapy
- Cold Laser Therapy Class IV and IIIb
- PRP (Platelet Rich Plasma)
- SCT (Stem Cell Therapy)

INTEGRATIVE THERAPY

CHINESE/COMPLEMENTARY MEDICINE

Integrative veterinary care unifies the science of conventional medicine with the benefits of complementary therapies to create health, promoting wellness, longevity and quality of life for your best friend.

- Chinese Herbs
- Laser, Aqua, Dry Needle & Electro Acupuncture
- Pulse & Tongue Diagnosis
- Herbal/Immune
- Cancer Therapies

OZONE/PROLOZONE THERAPY:

- Prolozone: vitamin/mineral, homeopathic solution with Ozone
- Ozone: assists in the treatment of inflammation, tissue damage, and more
- Side-effect free
- Extremely safe therapy
- Activates the immune system
- Enhances cellular immunity
- Inactivates bacteria, viruses, fungi, and yeast by placing oxygen at the site of inflamed tissue.

PRP (PLATELET RICH PLASMA):

- Therapy that concentrates the patients' blood and re-injects the plasma into the affected area(s) being treated.
- Helps to manage inflammation and tissue degeneration by concentrating platelets and growth factor proteins.

STEM CELL THERAPY:

- Regenerative therapy with the potential to revive tissues that have been damaged resulting in a loss of function.
- Extremely effective in pets with partial cruciate ruptures, osteoarthritis, and other bone, tissue, spinal cord, and nerve injuries.

PAWS INTEGRATIVE VETERINARY CENTER IS SOUTHERN ARIZONA'S DESTINATION FOR COMPANION ANIMAL HEALING AND WELLNESS.
