

Great news, we are reducing restrictions at the clinic! With the upcoming changes to public health orders here in Manitoba we are happy to announce the unlocking of our doors completely! We care about all our clients and patients so we will still require masks to be worn at all times in the clinic. We will be wearing ours to keep you safe and ask for the same cooperation to keep us and fellow clients safe.

We will still only allow 1 person in for the appointments but no need to call when you're here, come on in!

We also will still offer curbside pickup for all clients wanting to but you may also come inside to do your food and prescription shopping as well!
