

Dr. Chris Jensen

is a 1989

graduate of Iowa State University with a bachelor's degree in Animal Science. In 1993 he graduated from Iowa State College of Veterinary Medicine earning a doctorate of Veterinary Medicine.

Dr. Jensen purchased Monona Veterinary Hospital P.C. in 1998. His primary area of interest are small animal medicine and surgery.

Outside the business, his

hobbies include waterfowl and turkey hunting, fishing, training Labrador retrievers, raising pheasants and spending time with his family: Sherry, Drake and Hunter, along with the 3 family dogs Molly, Max and Cooper and 3 cats Baxter Bob, Glowie and Moochie.

Meet Us!

Stop in and meet our staff and tour our clinic at any time, everyone is welcome including your pet!

(l-r) Bonnie Lange, Pam Coenen-Sieg, Dr. Chris Jensen, Nikki Voshell and Amy Straate.

OFFICE PROCEDURES....

The first time we meet with you and your pet, we will perform a thorough physical examination along with taking a detailed medical history. It is our goal to provide your pet with the best care, and to establish a long term relationship between you and your pet.

Many of the medical technologies that help humans live longer lives are now available to your pets. Monona Veterinary Hospital wants to give you many happy, healthy years with your pet. After all, they are one of the family. We encourage questions and would like to discuss any health or behavioral issues you may have.

STEM CELL THERAPY:

What ARE VET STEM regenerative CELLS

(VSr Cs)

- VSRCs are your pet's own natural healing cells that help regenerate injured tissues.
- VSRC therapy produces more normal and complete healing process.
- The use of VSRC therapy has been used successfully in osteoarthritis, as well as soft tissue and orthopedic issues.

VSr CS HAVE BEEN Shown to:

- Improve quality of life.
- Regenerate healthy tissue.
- Signal to the animal's own healing cells, calling additional cells to the injury site for improved healing.

CURRENT uSES:

- Arthritis - Knee, Hip, Elbow
- Soft Tissue Repair - Complete and partial tendon and ligament tears.

COMMITMENT

We are committed to improving the health of our patients with care and compassion. We believe in this mission and the values that are critical to veterinary medicine. Our people, education, quality service and integrity are the cornerstones of our practice. It is our pledge to uphold the duties of our profession as we dedicate ourselves to healing and supporting those we serve.

MISSION STATEMENT

Our mission is to provide Northeast Iowa and surrounding areas with the highest quality veterinary care by offering our talents, services, and advanced medical equipment for the betterment of our patient's health. In order to reach this goal, we will dedicate our time to furthering our education by researching and implementing the newest advancements in veterinary medicine to stay at the forefront of our profession. By fulfilling our mission we will strengthen the human animal bond and our community.
