

COVID-19 SAFEGUARDS PROTOCOL

The Visiting Vet will employ the following procedures in order to safeguard the health and safety of our furry patients and their pet parents as well as that of our medical care team members.

We will provide medical care for our patients, outside of their dwellings, in the comfort of our climate controlled mobile veterinary care unit.

We will defer visiting anyone who is experiencing respiratory disease symptoms and anyone who has travelled outside of the United States or to any of the CDC's hot zones, within the United States, during the past ninety days.

The Visiting Vet team members will employ universal precautions, including personal protection equipment, during the delivery of care to all of their patients

Temperatures will be taken using disposable thermometer sheaths.

All diagnostic equipment, including scales, and table surfaces will be disinfected with virucidal solutions, after each patient contact, in compliance with the Centers for Disease Control and Prevention recommendation regarding Covid-19 disinfection practices.

Physical distancing will be observed when interacting with all pet parents.

Payment will be accepted in the form of credit/debit cards which will be handled with nitrile gloves.
