

ANIMAL CARE CENTER of BRENTWOOD

Date: _____ Owner: _____ Pet(s): _____

CONSENT FOR ADMISSION, TREATMENT, ANESTHESIA & SURGERY

I, the undersigned owner or responsible agent, hereby authorize the doctors at Animal Care Center of Brentwood to prescribe for, treat, anesthetize or perform surgery on the above-described pet(s). Should some unexpected life-saving emergency care be required, Animal Care Center's staff has my permission to provide such treatment and I agree to pay for such care. I understand that anesthesia and surgery are procedures which contain inherent risks. I am encouraged to discuss any concerns I have about those risks with my attending veterinarian before procedures are initiated. I agree to assume full financial responsibility for the balance of all services rendered at the time my pet is discharged.

PRE-OP BLOOD WORK CONSENT

Your pet is scheduled for anesthesia and / or surgery. To assure that your pet is in a low-risk category, we recommend a screening blood profile. This test can be performed in our hospital the same day. Pre-anesthetic blood work helps detect problems that may not be apparent on physical examination. The results will also serve as reference values for the future.

Profile 1	HEALTHY PETS UNDER 7 YEARS OLD	(\$65.80)		
	PCV (anemia)	Creatinine (kidney)	ALP (liver)	Glucose (sugar)
	T.P (hydration)	BUN (kidney)	ALT (liver)	SDMA (kidney) **NEW**
Profile 2	HEALTHY PETS OVER 7 YEARS OLD	(\$76.75)		
	PCV (anemia)	Creatinine (kidney)	ALP (liver)	Glucose (sugar)
	T.P (hydration)	BUN (kidney)	ALT (liver)	Amylase (pancreas)
	Globulin	Albumin (liver)	T. Bilirubin (liver)	Cholesterol (liver)
	Calcium	Phosphorus	SDMA (kidney) **NEW**	

Please complete the blood work you recommend prior to anesthesia on my pet. If abnormalities are found, please call and inform me at this number:

I have elected to refuse the recommended pre-anesthetic blood work at this time and request that you proceed with anesthesia.

PRE-SURGICAL CHECK LIST

Done

- Remove all food after 8 p.m. the night before your pet's surgery.
- Complete and sign the consent sections of this form.
- Give your pet lots of extra pats and kisses.
- Arrive at the hospital the morning of surgery between 7:30 - 8:30 a.m.

HOMEAGAIN – Pet Microchip Identification System

While under anesthesia, we can microchip your pet. The microchip is the size of a small grain of rice and is inserted just under the skin around the shoulder blades. If your pet should become lost, a microchip will identify you as the owner and can make the difference between life and death. The cost for the microchip is \$39.78. Registration in the database is \$19.99, payable to Home Again, and can be paid while here, or you may take the forms with you.

YES, microchip my pet NO, do not microchip my pet
