

With Love and Light from our family to yours!

Once again, an eventful year filled with losses and new beginnings but, thankfully, no hurricanes as we are still repairing from Irma 2017. Karen and I are doing well, as is mother and the rest of the family. Our practice is still very busy and we are still moving at full speed ahead, especially since handing off many of my Board positions to the newer generations. We just got back from the AHVMA meeting, in Orlando, and it was strange being at the first one in 15 years where I was not teaching or at Board meetings. We had a blast. Our newest technical addition (from that meeting) is a Digital Thermography unit that detects heat variances throughout the body, thus allowing us to pinpoint and track muscle, joint and internal issues and their healing. I included one of the images (Karen's hands) inside as it is pretty "cool" and a wonderful new tool.

We did lose two of our seniors – Adam and Ruby, plus a surprise loss of Clancy – who went into sudden heart failure and passed in Karen's arms. We are very sad that they left but we were joined by a "stray" orange and white cat – "Simon" in late January who decided he was our official "Walmart Greeter". He is such a lover, and great with clients, their dogs, and cats. Nothing seems to faze him. Five months later, a little orange and white kitten showed up in the yard. We immediately realized this was Simon's son. "Garfunkel" (what else?) is now 7 months old and takes after his dad as our second official in room Cat Scan, as you will see in many of the photos inside. So... FIVE cats and only three dogs and they, now, share space together, which is a very special change for us, since the dogs would never share the upstairs before.

Please have a wonderful Holiday season, a happy and healthy New Year and, as always...

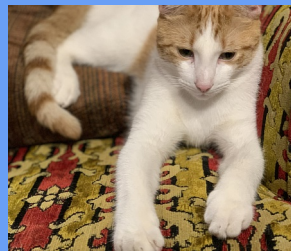

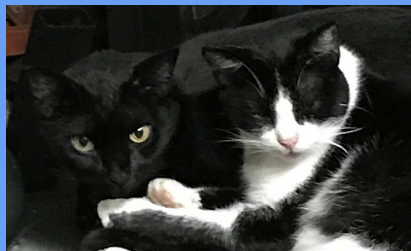

With Love and Light from our family to yours!
